Email messages that can be discarded with a single click are

---

sent and received at much higher rate. It may happen that during you email communication, your client has accidentally sent an email message that you consider to be unnecessary and is stored on your PC. This program is specially designed to eliminate all the duplicate emails that are stored in your PC. Thus, you can free up valuable space on your PC in no time at all. This freeware has a straight-forward interface that is not going to distract you from the main tasks at hand. The interface displays a graphical form, from which you can choose between two modes. The first one is oriented on information and provides you with

---

detailed information about each particular email, along with its storage in the selected PC folder. When you perform the second mode, this tool will start parsing the selected mailbox and remove all the duplicate e-mails that do not meet your needs. Thus, you can exclude all the unnecessary email messages from the outlook cache and free up space, without having to compress it yourself. MailMax Pro Description: Before you delete e-mails from your Microsoft Outlook, it is a good idea to compress them first. This way, your computer will enjoy the best and the fastest email communications. Another way to do this is to use the free MailMax Pro.

---

It will extract the attachments from your messages, and compress them so that the total size of the file on your PC will be reduced. Thus, it is much faster to retrieve the same file from your hard disk. You can also obtain a batch file that will free up space on your hard disk and compress all the most-used e-mails in one go. However, this option is going to take a long time to complete. Freeware. 20-10-2016, 12:57 WKPro WKPro is a WebKit-based download manager, browser and RSS reader that uses its own miniature WebKit engine to browse the Internet, downloading files and viewing RSS feeds. WKPro comes with a total of 15 plugins, which

---

perform tasks such as watching videos, playing audio files, viewing the news and accessing the internet radio via real streaming. As WKPro contains a mini WebKit engine, it doesn't require additional components and can run smoothly on slow systems, as it loads content on demand, and doesn't cause the operating system to perform heavy file operations. It comes with a file uploader and downloader, as well as a file manager
